An easy way with....

CLEANING & MAINTENANCE

A completely new design and improved functionality gives Piccoline complete control of all your room's cleaning status.

Piccoline is incredibly simple to use and automatically synchronizes with Picasso. Reception or your head housekeeper can create individual tasks in each room, choose the automatic creation of tasks in every room, or a combination of both and send them to Piccoline.

The Cleaning staff read and changes the status of each room as they are cleaned and their "todo" tasks are performed. They can also create maintenance tasks and provide feedback on individual tasks to the reception.

Picasso's little sister "Piccoline" functions on hand-held terminals such as Apple (Ipod, Ipad or iphone) and makes the administration of cleaning and maintenance much easier and clear for your staff.

An Affordable Option

IPod Touch

Piccoline is optimized for IPod Touch, available at any good reseller.

Introductory Offer

Piccoline is available at an introductory price of €1.00 Per Room/Per Month In Piccolines settings you can customize your hotel, where guest names must appear, or for example which maintenance tasks are to be seen by which staff member (for example maintenance staff).

Russell Court install Picasso

Russell Court is a centrally located, budget friendly hotel in the heart of bustling Harcourt Street.

They are also a stone's throw away from Grafton street and St. Stephens green with Temple bar located a short stroll away.

They have 40 individually styled Georgian bedrooms and a self-catering cottage.

They also cater for private parties and have three nightclubs so your options are endless.

The party never stops in Dicey's Garden which opens until late 7 nights per week with fantastic food and drink promotions.

Accounts Receivable In Picasso

The accounts receivable function in Picasso allows users to mark any payments that are received at the front desk that have been invoiced out.

Your accounts department can then take a report of what payment has come in and what invoice it is to be marked against.

If you have further questions about Picasso, Piccoline or the accounts receivable function please contact us today.

With best regards
