It has truly been a remarkable year

We would like to take this opportunity to wish our customers a very Merry Christmas and say thank you for joining us through 2022. It has been a good and eventful year.

Obviously the stand out event for Techotel in 2022 was the launch of Picasso Digital 11 with over [200 new features](#) by the Techotel Development Team. In addition to this we launched the [Onl22 room booking](#) system including a new and improved [Onl22 Table booking](#). 2022 was also the year where [Piccoline - the cleaning & maintenance app](#) released version 8, making the app much more versatile and user friendly.

While our main focus has been on the automation of Picasso, we have also concentrated on creating a much more cost efficient and cost saving application.

We were also thrilled to welcome among others, the largest conference venue in Norway into the Picasso family. Following this we welcomed the largest hotel in North of Sweden with 700 rooms.

All in all it has been a good year for Picasso Digital with so many digital innovations and new customers in both Ireland, Denmark, Sweden, Norway. We have been very happy working with you through 2022 and we look forward continuing down the same path in 2023.
